## **CLINICAL HEALTH PSYCHOLOGY PRACTICE AREAS & REFERRALS**

### **PSYCHOLOGICAL EVALUATION, TESTING & ASSESSMENT**

**My practice is a specialty offering psychological evaluation, testing and assessment in English and Spanish at my Silver City office or through home visits, if appropriate. ¡Soy bilingüe!**

As a **clinical health psychologist**, I specialize in applying scientific knowledge to the practice of health and wellness by understanding the interactions of biological, social, emotional, cognitive, and cultural aspects of individuals. All work including **intellectual, cognitive, and personality testing & assessment is performed by Dr. Weil.**

**Populations:** Evaluations are performed with adults, students (16+ through adult), Veterans, geriatric persons, Latinx, immigrants and refugees.

Follow-up for short-term cognitive behavioral (CBT) health and behavioral interventions for chronic health problems may be furnished after a psychological evaluation. **I do NOT currently provide psychotherapy for general mental health but I will be happy to provide referrals.**

### **STUDENTS - ACADEMIC & LEARNING DISORDERS**

For **students** (age 16+ through adult), I provide culturally competent psychological evaluations and testing of intellectual abilities and academic achievement particularly related to the diagnosis of **specific learning disorders**. I make recommendations for **accommodations** at school and college, and/or for testing centers.

### **COGNITIVE, HEALTH PSYCHOLOGY, PRESURGICAL & SPECIALTY ASSESSMENTS**

Cognitive evaluations are performed for concerns about dementia or memory, disability evaluations for **Veterans**, **presurgical** candidate evaluations for **pain** interventions or **bariatric** surgery, assessments for chronic health problems such as **insomnia, tobacco** use, **cancer, chronic pain, diabetes**, and **heart disease**, and consultation for **palliative** and **hospice** patients. Contact me for **immigration assessments** and any other specialty evaluations.

### **DIAGNOSTIC CLARIFICATION ASSESSMENTS FOR YOUR COMPLEX PATIENTS**

Psychological evaluation and testing is performed to **clarify mental health and behavioral health diagnoses** and assist other behavioral health professionals and physicians with focused treatment planning and recommendations for their complex patients.

## REFERRALS & PAYMENT

**Referrals for psychological evaluation, testing and assessment are accepted from health care providers, physicians, psychologists, counselors, social workers, local, state and federal agencies, attorneys, and others including self-referrals.**

**\*\*Please note, I do not currently provide psychotherapy for general mental health but will be happy to provide you with local referrals.\*\***

Please call or **fax your legible referral** to Dr. Weil with copies of:

- |   |   |
|---|---|
| ✓ releases of information (ROI)               | ✓ contact information for client & referral source            |
| ✓ insurance card                              |   |
| ✓ pertinent health/mental health care records | ✓ the <b>specific referral question posed by the provider</b> |

At this time, my practice accepts **MEDICARE original insurance** and **self-payment for all others (non-Medicare)**. Psychological testing typically involves preauthorization requests.

For those with Medicare Advantage insurance plans, out-of-network benefits/contracts may be available and **at my discretion to accept**.

Most insurance carriers do not cover psycheducational evaluation (intellectual & academic assessment of students) and self payment is expected. **Please call to discuss.**

---

## CONSULTATION, TRAINING & SUPERVISION

I offer **consultation and training** in both **English and Spanish** to **health care organizations**, staff, and their clients at competitive rates.

**Bilingual supervision** for behavioral health professionals and students may be contracted for psychology, social work and counseling.

**Thank you for your interest in my practice. Please call me today!**
