MISSION & VALUES

Improve QoL via bilingual, culturally responsive, clinical health psychology practice of exceptional quality.

- ◆ Cultural Humility
- ◆ Integrity
- ◆ Competency
- ◆ Justice

CLINICAL HEALTH PSYCHOLOGIST

Marie C. Weil, PsyD, ABPP is a **bilingual clinical health psychologist** licensed to practice in New Mexico and Texas. Her specialty practice offers culturally and linguistically responsive psychological testing and assessment for capacity, disability, cognitive and health concerns, presurgical candidates, academic and learning issues, parental focus, co-occurring substance use and mental illness, and complex patients. Dr. Weil practices and recommends evidence-based psychological interventions to impact patient functioning and quality outcomes.

Dr. Weil is a professionally recognized specialist **applying scientific** knowledge to the practice of health and wellness. She practices health promotion & disease prevention and treats illness & disability. With over 25 years of dedicated interprofessional experience her employment spans the Veterans Health Administration, Federal Bureau of Prisons, hospitals, universities, state and federal agencies, managed care, private practice, and community centers including a FQHC.

CONSULTATION

As a consultant to your health care practice, Dr. Weil provides expertise in integrated, co-occurring mental health and substance use treatment and for patients with chronic medical conditions, specializing in behavioral health integration. She is board-certified in clinical health psychology by the American Board of Professional Psychology.
